Mr. Spates welcomed those attending. Chairman Fore and Mayor Newman called the governing bodies to order at 11:40 am. Council member Whitus offered the prayer.

Mr. Bartlett provided an update on various County projects, followed by Mr. Spates speaking on several Town projects.

Council member Thompson spoke suggesting that the Town and County build a pipeline from Sandy River to Wilck's Lake and that both governing bodies operate the Town's water treatment plant together, sharing the expense and operational maintenance. She suggested that a committee be formed.

Chairman Fore responded saying that the County needs additional information in order to make an educated decision and they are not ready to talk about the water at this time. Mr. Bartlett said the County is waiting on the financial analysis, prior to discussing their options. Members spoke briefly on the proposed water project and no action was taken.
